Revised 28<sup>th</sup> April, 2006<sup>(1)</sup>

## Pupils in Scotland, 2005

#### 1. Introduction

- 1.1 This document contains information on pupils in publicly funded schools in Scotland, mainly derived from the latest annual pupil census which took place in September 2005. As well as the tables contained in this document, the pupil characteristics collected in the census can also be matched against attainment, attendance and exclusions information, and can further be analysed at smaller geographic areas.
- 1.2 Tables in this publication are grouped into chapters, firstly at a national level into all sector summary figures (tables 1.1-1.11), then into primary (tables 2.1-2.20), secondary (tables 3.1-3.11) and special (tables 4.1-4.8). Then local authority figures are similarly grouped (tables 5.1-5.6, 6.1-6.14, 7.1-7.12, 8.1-8.10). At the bottom of each table a note will direct you to the equivalent national or local authority table. A map of local authorities is given on page 81, and an index is also provided at the back of the publication.

#### 2. Main Statistics

- 2.1 In September 2005 there were a **total** of 713,240 pupils in 2,769 publicly funded schools in Scotland.
- 2.2 There were 390,260 pupils in 2,194 **primary** schools, 315,840 pupils in 385 **secondary** schools, and 7,140 pupils in 190 **special** schools (table 1.1). Pupil numbers have been reducing, in line with a fall in the population. In recent years the proportion of pupils in special schools has been falling slightly, from 1.11 per cent in 2000 to 1.02 per cent in 2004 and 1.00 per cent in 2005.
- 2.3 About a third of primary schools had fewer than 100 pupils, with the **average size** being 178 pupils. The average number of pupils in a secondary school was 820, with almost a third having over 1,000 pupils (table 1.2)
- 2.4 There were 34,680 pupils who were either based in a special schools or had a **RoN and/or IEP** in primary or secondary schools (table 1.6). In mainstream schools there were 27,540 pupils (3.9 per cent of all mainstream pupils) with a Record of Needs (RoN) and/or an Individualised Educational Programme (IEP). This compares to 25,363 in 2004, a nine per cent increase. Eighty-three per cent of these pupils spent all of their time in mainstream classes (table 1.5).
- 2.5 Of those with a RoN and/or IEP in mainstream and special schools, the largest categories of **main difficulty** were moderate learning difficulties (10.3 pupils per 1,000), specific learning difficulties in language and/or mathematics including dyslexia (10.1 pupils per 1,000) and social emotional and behavioural difficulties (6.2 pupils per 1,000). Overall 70

(1) Tables 1.7, 2.6 and 6.8

per cent of pupils with a RoN and/or IEP were boys, the same proportion as in 2004. (table 1.7)

- 2.6 Of those pupils whose **ethnic background** was declared, 95 per cent were white-UK. The largest other groupings were White-other (1.3 per cent), Asian-Pakistani (1.3 per cent), and Mixed (0.8 per cent). 3.0 per cent of pupils did not disclose their ethnic background (table 1.8), this compares with 3.7 per cent in 2004.
- 2.7 The average **class size** in primary schools was 23.6 pupils, down from 23.9 in 2004. Composite classes had an average of 19.9 pupils, down from 20.2 in 2004. P1 classes had the smallest average size of single stage classes at 23.1 pupils, down from 23.2 in 2004 (table 2.11).
- 2.8 There were 2,048 primary school pupils receiving at least some of the curriculum through **Gaelic medium education** with a further 160 being taught Gaelic through the medium of Gaelic and a further 2,924 being taught Gaelic as a learner (table 6.14). There were 433 secondary school pupils receiving at least some of the curriculum through Gaelic medium education with a further 1,292 being taught Gaelic through the medium of Gaelic and a further 2,095 being taught Gaelic as a learner (table 7.12).

#### **BACKGROUND NOTES**

#### 1. Sources

1.1 The information in this publication is derived mainly from the Pupil Census from 12<sup>th</sup> September 2005 and previous years. Some 2004 data has been amended since publication last year, following resubmission by one local authority.

## 2 Coverage and Timing

- 2.1 The Pupil Census covers all publicly funded schools in Scotland (local authority and grant-aided). Where a school has more than one department, for example a secondary school with a primary department, these are counted as separate schools. The census of independent schools is published separately, and will be available on the Scottish Executive website.
- 2.2 Schools which provide education predominantly for children with special educational needs often have pupils from a wide age range and the data collected from this sector reflects this. Where pupils attend a 'special unit' attached to a mainstream school, they are usually included in the figures for the mainstream school. Some schools and local authorities have reported pupils from 'special units' separately.
- 2.3 Pupils who are withdrawn from school, for example, because of long-term illness, are not included in the school census returns. Information on such pupils is provided by local authorities in the annual survey of children educated outwith school, results of which are available on the Scottish Executive website

http://www.scotland.gov.uk/Publications/2005/11/14163317/33174

In 2004/05, 1,512 children were reported by local authorities to have received education outwith school at some point during the year.

2.4 From 2003 a separate staff census has taken place. Results of this will be published in "Teachers in Scotland, 2005", and will be available on the Scottish Executive website. http://www.scotland.gov.uk/stats/bulletins/00489

#### 3 Census content

3.1 The content of the Pupil Census is considered each year in consultation with the Data Exchange in Education and Children Services Group (DEECS). This group includes representatives from local authorities, teaching unions and headteachers associations, as well as staff from the Scottish Executive. The committee operates in the light of National Statistics guidelines, which restricts the department to collecting only the information that is required, at a level which is fit for purpose, whilst always trying to minimise the burden on data providers. Recommendations for changes to the census are made to DEECS through the Scottish Exchange of Educational Data (ScotXed) network.

#### 4 Collection methods

- 4.1 The information required to complete the September 2005 Pupil Census was collected electronically, through local authorities, from nearly all publicly funded primary, secondary and special schools, as part of the ScotXed programme. The information is generally stored on schools' management information systems, thus reducing the burden on schools.
- 4.2 ScotXed supports and promotes effective and secure data exchanges so that key partners in school education in Scotland can benefit from access to information to monitor and improve education services. Partners include local authorities, schools, the Scottish Qualifications Agency, HM Inspectorate of Education, Learning and Teaching Scotland and Scottish Executive Education Department. Further information, including specifications of the data exchanges, can be found at <a href="https://www.scotxed.net">www.scotxed.net</a>.

#### 5. New Information

- 5.1 For the first time in 2005, information was collected as part of the pupil census on the extent of **Gaelic medium education**. These figures are published in tables 6.14 and 7.12.
- 5.2 In order to assist in monitoring the Disability Discrimination Act, information has started to be collected on the number of **disabled pupils** and the need for physical, curriculum or communication adaptation. Poor data quality in some areas has meant that this information is not being published this year.
- 5.3 Information has also been collected in the area of **English as an Additional Language**. Again, due to various issues in its first year of collection, this has not been published.

#### 6. Definitions

- 6.1 Tables in this publication cover **publicly funded schools only**, i.e. local authority and grant-aided. Information on independent schools will be available on the Scottish Executive website http://www.scotland.gov.uk/stats/bulletins/00490
- 6.2 Where numbers of pupils are given, these relate to **pupils based** at the school. Pupils who are attending the school but are based at another centre (for example, students from a Further Education College who are taking some classes at a school) are not included.
- 6.3 A **class** is a group of pupils normally supervised by one teacher. The group may occasionally be supervised by more than one teacher, for example, when pupils are receiving learning support from a teacher who is not the class teacher.
- 6.4 Maximum class sizes in primary schools are as follows:
  - 30 for single stage class P1-P3
  - 33 for single stage class P4-P7
  - 25 for composite stage class
- 6.5 A few schools returned data that included pupils from other schools who spend some time in their classes (see 6.3 above). In this publication only pupils on the school roll have been included in the figures in order to avoid double counting of pupils. There still remain however a few schools unable to reconcile class totals with pupil totals. This information has been published as provided. This involved a net difference of 228 pupils. If the additional pupils were excluded, the average class size would remain at 23.6.
- 6.6 A **composite class** is a class of pupils from two or more stages.
- 6.7 The **ethnic background** and **national identity** categories were based generally on those collected in the 2001 population census and were agreed following consultation. Pupils and parents were given the option of not disclosing their ethnicity, and in such cases pupils were *not* attributed a category. About 97 per cent of pupils disclosed their ethnic background, an increase on previous years.
- 6.8 Figures for the **special school** sector are compiled from special schools and special units. There would appear to be inconsistency between schools and between local authorities in the reporting of special schools and special units as separate identities, as well as changes over the past years. We therefore advise caution when comparing results with previous years and across local authorities.

A few authorities do not have special schools, and may fund places in neighbouring authorities for their pupils.

The number of special schools includes 33 where there were no pupils based, but which received pupils based in other schools.

6.9 At September 2005 there was one **grant-aided mainstream** school, with primary and secondary departments, and seven **grant-aided special** schools. These schools are included in national totals, but are identified separately in the local authority level tables. In publications prior to 2003 they were included within the local authority of their location.

- 6.10 **Free school meal** data collected in the Pupil Census only counts those pupils who are <u>registered</u> for free school meals. Free school meal entitlement (FME) data collected in the January School Meals Survey also includes those pupils who are deemed eligible for free school meals but who may not have registered for their entitlement, accounting for an additional 1.3 per cent of pupils. The FME indicator collected in the annual School Meals Survey was that currently used in funding calculations and in benchmarking schools. Information from the Pupil Census is used only where linkage to other pupil characteristics, or attainment, exclusions and attendance data is necessary.
- 6.11 A **Record of Needs** (RoN) is provided for a child who has "pronounced, specific or complex special educational needs which require continuing review". The RoN contains the child's details; the details of the parent/guardian and "named person" (someone to represent them); an assessment profile; a summary of the child/young person's impairments; a description of the special educational needs arising from the impairments; a statement of the measures proposed by the education authority; the name of the school to be attended; a summary of the views of the parent/guardian; the date the record was opened and a summary of the reviews of the record; and a note of who is allowed to access the record. Following the implementation of the Additional Support for Learning Act, information in this area will change for the 2006 pupil census.
- 6.12 **Individualised Educational Programmes** (IEPs) are written plans setting targets that a child, with special educational needs, is expected to achieve. Targets should be limited in number and focus on key priorities of learning. They should be simple, clearly expressed and measurable.
- 6.13 Pupil census figures on **children looked after by the local authority** are evidently incomplete when compared with similar data from social work departments. They are published this year alongside the social work figures, as at 31<sup>st</sup> March 2005, for comparison.
- 6.14 The **urban/rural** classifications in Table 1.3 are defined as follows:
  - Large urban areas settlements over 125,000 population. This covers the city conurbations of Edinburgh, Glasgow, Aberdeen and Dundee.
  - Other urban areas settlements of 10,000 to 125,000 people.
  - Accessible small towns settlements of between 3,000 and 10,000 people and within 30 minutes drive of a settlement of 10,000 or more.
  - Remote small towns settlements of between 3,000 and 10,000 people, who are not within 30 minutes drive of a settlement of 10,000 or more people.
  - Accessible rural areas settlements of less than 3,000 people and within 30 minutes drive of a settlement of 10,000 or more people
  - Remote rural areas settlements of less than 3,000 people who are not within 30 minutes drive of a settlement of 10,000 or more people.

#### 7. Rounding

7.1 All percentages are rounded separately and breakdowns may consequently not sum to 100 per cent.

#### 8. Disclosive data

- 8.1 Numbers less than five are generally deemed to be disclosive, and hence not published. Where figures have been removed they are replaced by \*. Other figures in the table may also be removed to stop a disclosive figure from being calculated from the total.
- 8.2 However, in some cases where there are a large number of pupils in the *unknown* category, i.e. ethnic background and national identity, there often exists a large enough amount of uncertainty for figures to be published.
- 8.3 Occasionally, as in data for grant aided schools, it has been preferable to swap a small number of data rather than removing figures elsewhere in the publication. Swapped data has still usually been marked as \*.

#### 9. Other data

- 9.1 Some further data, for example some school level data, will be made available on the Scottish Executive website <a href="www.scotland.gov.uk/stats">www.scotland.gov.uk/stats</a> . Ad-hoc tables are available on request.
- 9.2 Analysis on a more local level may also be available via the Neighbourhood Statistics website <a href="http://www.sns.gov.uk">http://www.sns.gov.uk</a>.

### 10. Symbols

10.1 The following symbols are used:

.. = not available

- = nil or rounds to nil

# = not applicable

= disclosive data

#### 11. General

- 11.1 **This is a National Statistics publication.** National Statistics are produced to high professional standards set out in the National Statistics Code of Practice. They undergo regular quality assurance reviews to ensure that they meet customer needs. They are produced free from any political interference.
- 11.2 The report was edited by: Mal Cooke, Louise Flanagan, Matt Flanagan, Colin Gallacher.
- 11.3 All tables are available on the Scottish Executive website at <a href="http://www.scotland.gov.uk/stats/bulletins/00487">http://www.scotland.gov.uk/stats/bulletins/00487</a>

#### 12. Enquiries

- 12.1. Public enquiries (non-media) about the information contained in this bulletin should be addressed to Mal Cooke, Education and Children Statistics Unit, Room 1B, Victoria Quay, Edinburgh EH6 6QQ. Telephone 0131 244 1689 or e-mail school.stats@scotland.gsi.gov.uk
- 12.2 Media enquiries about the information in this notice should be addressed to:

<sup>(1)</sup> The S5 stage staying-on rates are based on S3 pupils 2 years earlier, and S6 rates on S3 pupils 3 years earlier. Post Christmas staying-on rates are calculated as a percentage of the post Christmas S5 roll divided by the S3 roll 2 years earlier. The post Christmas role in S5 is calculated by subtracting the number of first term leavers in S5 from the September S5

<sup>1996-98</sup> stage roll data used to calculate staying-on rates excludes pupils in special units. 1999-05 stage roll data used to calculate staying-on rates includes pupils in special units.

School Leavers data for 2005/06 is not yet available and so post Christmas staying on rates cannot be calculated. Local authority figures on page 67.

<sup>(1)</sup> The S5 stage staying-on rates are based on S3 pupils 2 years earlier, and S6 rates on S3 pupils 3 years earlier. Where significant numbers of pupils are taken on in S5 this can result in staying-on rates of over 100%. Post Christmas staying-on rates were not available at time of publication.

<sup>1999-05</sup> stage roll data used to calculate staying-on rates includes pupils in special units. National averages have been calculated from the figures for all available local authority and grant-aided schools, whereas the local authority averages are based on local authority schools only.

### SCOTTISH EXECUTIVE STATISTICAL SERVICES

### Our aim

The aim of the Statistical Service is to provide relevant and reliable statistical information, analysis and advice that meet the needs of government, business and the people of Scotland.

### Our Objectives

### 1. To ensure that all statistics work is relevant to meeting user needs by

- Improving the range of statistics and analysis we produce for users inside and outside of government (including for key cross cutting policy areas such as the economy, social justice, area regeneration, equality and rural issues)
- Reviewing and where practicable improving timeliness.
- Providing more statistics disaggregated by age, gender, ethnicity and other characteristics.
- Developing more data for small areas through the Neighbourhood Statistics project
- Maintaining comparability of statistics across the UK.

### 2. To make better use of our statistics by

- Contributing more directly to policy processes inside and where possible outside government. These
  include community planning, performance information, measurement of government targets, better
  policy making and modernising government objectives.
- Improving access to and presentation of data and analysis, through better use of the Web, improved publications and improved systems for holding and accessing background data.
- Improving the advice provided on statistics to Ministers and senior management within the Executive.

### 3. To develop the reliability and integrity of official statistics by

- Assuring and improving quality as an integral part of data collection and analysis and through regular reviews in line with National Statistics quality strategy.
- Developing statistical methods, systems and classifications
- Maintaining and promoting integrity through implementation of the National Statistics Code of Practice and related protocols.

### 4. To ensure the efficient and effective delivery of statistics products and services by

- Making full use of all sources including administrative sources.
- Minimising the burden on data providers through Survey Monitoring & Advice
- · Ensuring value for money.
- Employing staff with the necessary skills and ensuring development of expertise amongst existing staff.
- Ensuring effective use of Information and Communications Technology.
- Managing, promoting and upholding the integrity of the statistics profession.

### 5. To plan effectively and work together by

- Producing and implementing an annual Scottish Executive Statistics Plan.
- Developing more co-ordinated working arrangements with other analytical services in and out of the Executive.
- Working with the rest of the Government Statistical Service to develop joint approaches/solutions where appropriate.
- Improving the involvement of users and providers, working on a partnership basis wherever possible.

### This is a National Statistics publication

This Statistics Release has been produced to the standards set out in the National Statistics Code of Practice and Release Practice Protocol.

http://www.statistics.gov.uk/about\_ns/cop/default.asp

National Statistics are produced to high professional standards. They undergo regular quality assurance reviews to ensure that they meet customer needs. They are produced free from any political interference.

Details of pre-release access will be provided in the Scottish Executive Statistics Website under 'Forthcoming Releases'.
